Our product history timeline

CLASSIC Flowerpots

Concrete flowerpots of the CLASSIC range will impress you with their simplicity and clean design. The elegant and natural curves of the large-volume container make the varied colouring and structure truly stand out. The CLASSIC range flowerpots can be used in both historical settings and modern architecture.

DECOR

Flowerpots

The collection of the concrete flowerpots of the DECOR range is decorated with a simple and delicate mould line pattern which expands towards the bottom of the container. The elegant shapes and earthy colours complement each other beautifully and bring a touch of contemporary design into any environment. Thanks to the use of high-quality materials and precise processing, the DECOR range flowerpots will give your house and garden a truly unique look.

SIMPLE Flowerpots

The concrete flowerpots of the SIMPLE range are the ideal choice for all those who long for flowerpots which are stylish, minimalist, and extraordinary at the same time. They add style to your exterior, not only because of their attractive shape but also because of their unique concrete structure.

ORGANIC Flowerpots

The shape of the ORGANIC series containers was inspired by nature. The large-volume planters are free from any geometric regularities and they take on various shapes which will impress you with their natural feel. The simple and smooth surface as well as the natural colouring is highlighted by the organic shape of these designer objects.

ZEN bowls

These concrete bowls are a universal decorative element which can be used both outdoors and indoors. The graceful and simple lines of the designer bowls do not attract too much attention, but they are very functional and convenient. Their elegance lies in the surface finish and natural colour.

EDGE tables

The most typical feature of the EDGE tables collection is the slender legs combined with a solid concrete top. The standard shape of the table made of an unusual material creates an interesting contrast which beautifully brightens up your space.

LEVIT tables

The atypical organic shape of Levit tables will bring an element of elegance to your exterior and will undoubtedly become a functional and long-lasting solitaire. You can choose from two types of surface treatment – a smooth surface or a surface with a slate structure. We treat the surface with impregnation and coating to make it resistant to aggressive liquids. Betoni tables can handle even the most demanding conditions of an outdoor space.
